YEAR IN RE- VIEW NEWS

Rise from the Ashes

Sorting through the ruins of his former home, Lou Donnelly, left, and his brother-in-law, Donald Weeks, find little remains after the Camp Fire blazed through Paradise, California, in November. The fire, which was California's largest, deadliest and more destructive than the previous seven most destructive fires combined, cost at least 85 people their lives and displaced more than 250,000. Many remained missing as rescue crews continued their search. The Camp Fire burned concurrently with the Woolsey and Hill Fires in Southern California.

Rain, Rain, Go Away

Hurricane season brings two particularly destructive hurricanes to the eastern coast. Hurricane Florence made landfall in North Carolina in September, bringing record-shattering rain and flooding, while October's Hurricane Michael, characterized by heavy winds, was the strongest storm to ever hit the panhandle of Florida. The storms killed more than 90 people and caused billions of dollars in damage.

Stalemate

As the government shutdown stretched on to become the longest in U.S. history, "We're Closed" signs became increasingly common, as seen at the National Zoo and other popular attractions. Over 800,000 federal workers were affected, not including government contractors, when an agreement on funding could not be reached. Those categorized as essential personnel worked without pay while those categorized as non-essential were furloughed starting in December.

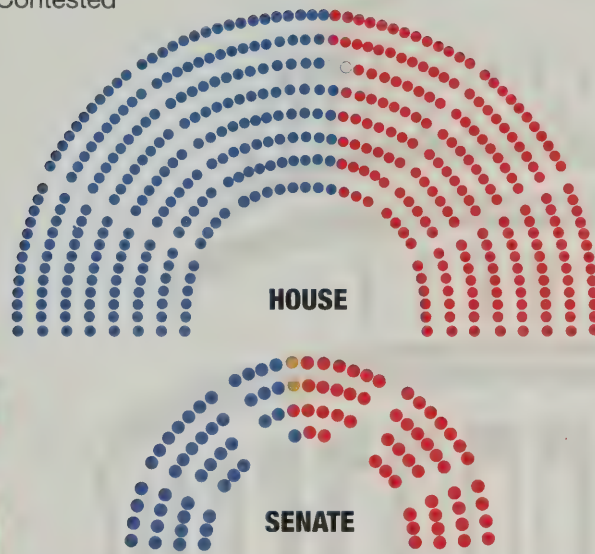

All Smithsonian museums and the National Zoo are closed today due to the government shutdown.

Please visit www.si.edu for updates. We apologize for the inconvenience.

Count Me In

The 2018 midterms see the highest turnout in over a century, fueled by a polarized political climate and heightened voter enthusiasm. Democrats easily regained control of the House but failed to win back the Senate, with Republicans gaining two seats to strengthen their hold. A record number of women and people of color won seats, making this the most diverse Congress ever. Nancy Pelosi, the first female speaker of the House, made history by becoming the first person in over 60 years to be reelected after leaving the position.

Royal Delivery

American actress/activist-turned British Royal Meghan Markle, Duchess of Sussex, sports her baby bump. Just five months after her wedding to Prince Harry, Duke of Sussex, in May 2018, Kensington Palace announced the couple was expecting their first child, due in the spring of 2019, with all members of the royal family reportedly delighted by the happy news. Regardless of gender, the baby will be seventh in line to the throne.

Finding Your Balance

A baby goat brings smiles and practices its own balance while perched on an enthusiast's back. With millions of Americans trying yoga each year and more than two million goats in the United States, it was only a matter of time before someone put them together. Though its origins are somewhat murky, the goat yoga trend spread quickly, offering a good time to human and caprine practitioners.

Fighting for Our Future

Levi Draheim, 11, speaks at a climate change rally in Eugene, Oregon. Draheim was one of 21 young plaintiffs suing the United States government for failing to protect the Earth from the effects of climate change. In *Juliana v. United States*, petitioners claimed the promotion of fossil fuels threatens the survival of future generations.

YEAR in RE- VIEW NEWS

The End of an Era

As the American public pays their final respects to former president George H.W. Bush, the 41st president of the United States, he is also mourned by his service dog, Sully. Bush died Nov. 30, 2018. The year was marked by two major political losses. Senator John McCain died Aug. 25, 2018, from brain cancer. Both Bush and McCain made significant marks during their time in office and were widely mourned by both Democrats and Republicans.

A New Justice

Filling the second vacancy of his presidency, President Donald Trump watches as Judge Brett Kavanaugh is symbolically sworn in by retired Supreme Court Justice Anthony Kennedy with Kavanaugh's wife, Ashley, and daughters, Liza and Margaret, by his side. The ceremony took place shortly after Kavanaugh was confirmed by a Senate majority vote, becoming the 114th justice in the nation's history.

#Blessed

Overcome with emotion, Howard University senior Mya Thompson reacts to Alfred Street Baptist Church's surprise announcement they are paying her tuition and fees balance. The church, one of the nation's oldest African American congregations, donated \$100,000 to Howard University, distributed to 34 graduating seniors. They raised the money during a church-wide prayer and fasting campaign where members gave offerings for a community cause, including \$50,000 for Bennett College.*

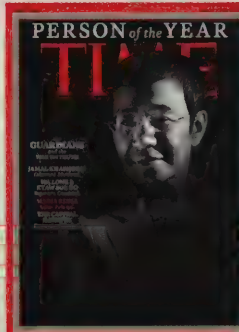

A Narrow Rescue

Twelve boys and their coach are in good health after their rescue from a flooded cave in Thailand. The soccer team was trapped for more than two weeks after heavy rains blocked their way out. Thai Navy Seals swam through narrow passages to reach the boys in what they referred to as one of their most dangerous missions, even leading to one Navy Seal's death.

"Not a Woman in Science"

The 2018 Nobel Prize in Physics was split, with half awarded to Arthur Ashkin, and the other half jointly to Gérard Mourou and Donna Strickland. The work of all three centers on laser physics, but Strickland received extra attention for being only the third woman to receive the prize in its 118-year history. In interviews following the announcement, she made it clear that she sees herself "as a scientist, not a woman in science."

Truth vs. Journalism

"The Guardians and the War on Truth" rose to the top of TIME Magazine's Person of the Year. They were journalists whom world leaders and governments tried to silence. Four separate covers featured either slain Saudi journalist Jamal Khashoggi; Maria Ressa, founder of the online news site Rappler; the wives of Reuters reporters Kyaw Soe Oo and Wa Lone holding pictures of their husbands who are imprisoned in Myanmar for reporting on the killing of Rohingya Muslims; or the staff of the Capital Gazette in Washington, D.C., where a gunman opened fire. TIME chose them to highlight the importance of journalism in the world and the need for truth and accountability. A few other short-list candidates included separated families, Dr. Christine Blasey-Ford, Black Panther Director Ryan Coogler and March For Our Lives activists.

YEAR in RE- VIEW ENTERTAINMENT

A Merry Christmas Season

December becomes a month of “I do” for celebrities. Fans learned singer Nick Jonas and actress Priyanka Chopra wed in lavish dual Christian and Hindu ceremonies in India after a four-month engagement. Singer Miley Cyrus and fiancé Liam Hemsworth wed in an intimate home ceremony fans only discovered through their Instagram accounts. Both weddings followed the official confirmation in November that singer Justin Bieber wed model Hailey Baldwin.

The New Playground

The hugely popular game Fortnite: Battle Royale continues to be a hit with children and teens, garnering over 200 million users worldwide. Groups of 100 battled virtually on an island where they fought to be the last player standing while avatars dressed in costumes and pulled out dance moves. The free download allowed users to collect weapons and resources as they played individually or in groups across multiple platforms.

A Pantone Year of Fashion

Supermodel Ashley Graham, recently named Fashion Force of the Year by Daily Front Row during New York Fashion Week for her body positivity activism, shows off some of the year's hottest fashion trends, such as neon colors. Neons and corals were seen everywhere from celebrity fashion to Pantone® Colors of the Year. Other popular trends included distressed denim, crop tops and tube tops, waist bags a.k.a. fanny packs, scrunchies, expensive athletic shoes, vintage-style glasses with semi-translucent frames, bike shorts and cargo pants, with many nods to early 90s fashion.

The Audio Experience

The popularity of podcasts continues to grow. In 2018, it was estimated that 73 million people listened to podcasts in the United States and this number is expected to increase to an estimated 132 million listeners by 2022. Popular podcasts included *This American Life*, *Serial*, *The Stuff You Should Know* and *Dear Hank & John*, hosted by young adult author John Green and his brother, Hank.

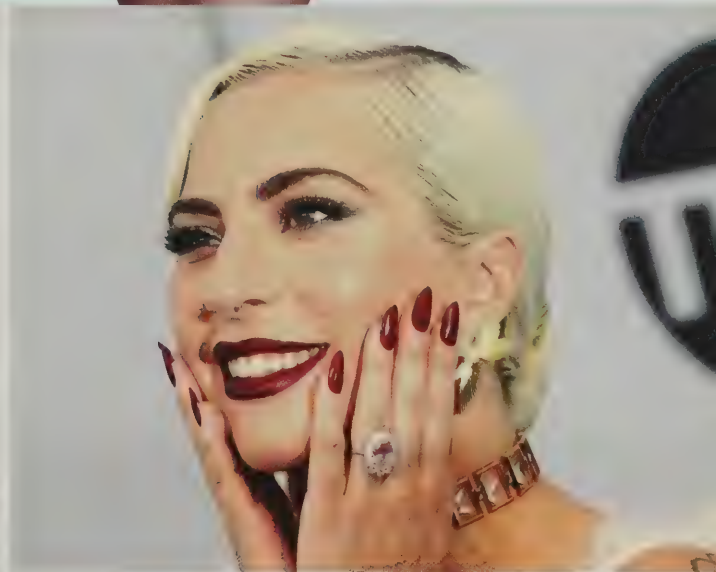

Countdown to a Billion

Worth \$900 million, Forbes features Kylie Jenner, 21, on the America's Women Billionaires cover as on track to become the youngest ever self-made billionaire. As a joke that went viral, Instagram celebrity Josh Ostrovsky started a GoFundMe page to help Jenner reach \$1 billion.

Famous, Fabulous and Influential

Queen of Soul Aretha Franklin, 76, passes away in August, but her legend endures. Four days of mourning, with a memorial service in her hometown of Detroit, featured celebrity tributes and fabulous fashion inspired by the diva. Franklin saw more than 100 of her singles place in the Billboard charts, received a Grammy Lifetime Achievement Award, was the first woman inducted into the Rock and Roll Hall of Fame and was bestowed a Presidential Medal of Freedom.

Going Gaga

Lady Gaga is all smiles following the success of the film "A Star Is Born." Her performance and music were showered with praise, receiving awards and nominations at the Golden Globes, Oscars, Grammys and Screen Actors Guild awards ceremonies, among others. Gaga co-wrote and performed much of the film's original music, including lead single "Shallow." Her stand-alone music received recognition, with the song "Joanne (Where Do You Think You're Goin'?)" earning Gaga another Grammy.

YEAR it RE- VIEW ENTERTAINMENT

A New Way to Watch

Don't like the ending? Choose another! Netflix is now offering "choose your own adventure" options. They started the interactive options with shows for young watchers, then brought it to older audiences with the "Bandersnatch" episode of the science fiction show "Black Mirror." Viewers were given the opportunity to choose their storyline, making choices about everything from music to the character's reactions.

From First Lady to Bestselling Author

Michelle Obama's memoir, "Becoming," quickly becomes one of the most popular books of the year, selling more than 1.4 million copies in its first week. In its pages, the former First Lady shared stories of her life, from her childhood on the South Side of Chicago to her role as part of the first black presidential family in the White House.

Spice Up Your Life

In November, the Spice Girls officially confirm their widely anticipated reunion. The group, sans Victoria Beckham a.k.a. Posh Spice, announced 19 events thus far in the United Kingdom and Ireland throughout May and June of 2019. Widespread excitement from everyday fans as well as celebrities, such as Adele's Instagram post, accompanied the announcement.

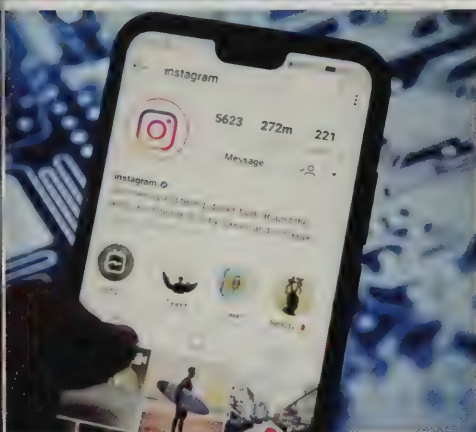

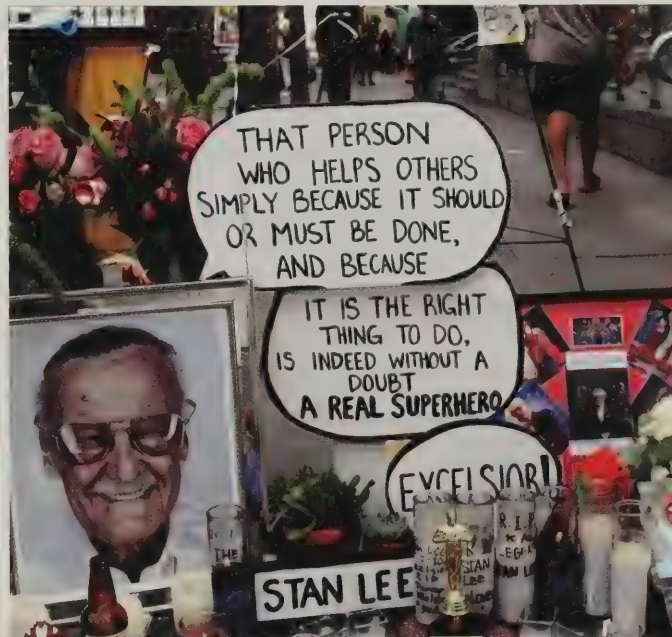

Bingeing on Nostalgia

People show their nostalgia, with "The Office," "Friends," "Parks and Recreation" and "Grey's Anatomy" holding as the most-streamed shows on Netflix. On the airwaves, NBC's "Manifest," ABC's "The Conners," and the CBS procedural "FBI" were among the most popular new shows. "The Big Bang Theory" and spinoff "Young Sheldon" continued to be fan favorites, while "This Is Us," "The Good Doctor" and "The Voice" maintained their history of strong ratings.

Marvel's Marvels

The release of the highly anticipated films "Captain Marvel" and "Avengers: Endgame" is a bit bittersweet following the death of Avengers co-creator Stan Lee. Lee, 95, was credited with revolutionizing the superhero and comic book genre by portraying flawed characters like the Hulk, Doctor Strange, Spider-Man, Thor, Iron Man and the X-Men. He was known for his frequent cameos in Marvel Universe films.

Swipe Left

Instagram faces massive backlash in late December after an update made users swipe left to right to see stories instead of scrolling down. Instagram said a glitch accidentally sent an update that was supposed to only test a small group of users to everyone instead. Users complained that they would delete the app if the previous layout was not restored and Instagram fixed the bug the same day.

With a Grammy!

Cradling her four Grammys, Kacey Musgraves celebrates a successful night at the Grammys. Musgraves won Album of the Year and Best Country Album for "Golden Hour," Best Country Song for "Space Cowboy" and Best Country Solo Performance for "Butterflies," tying with Childish Gambino for most awards of the evening. She became the first country artist since Taylor Swift to win Album of the Year.

YEAR in RE- VIEW SPORTS

Objective: Victory

Gamers fight a virtual battle in October, seeking to win the 2018 eSports World Convention finals. As the popularity of eSports grew, massive arenas were built and competition prizes topped \$1 million. One study found young gamers spent more time watching other people play video games online than they spent watching traditional sports on television.*

Vive la Champions

France beats Croatia 4-2 to win the 2018 FIFA World Cup title. In a dramatic blow, Croatia's forward, Mario Mandzukic, sent the ball to the wrong goal by mistake, scoring for France. Kylian Mbappe, 19, scored a goal just over an hour into the game, joining Brazilian soccer star Pele in history as the only two teenagers to score at a World Cup Final. French coach Didier Descamps said France would be "on top of the world for next four years."

Let the Clowns

After a win in game 5, Eduardo Nuñez and Xander Bogaerts of the Boston Red Sox celebrate their ninth World Series championship. The defeat of the Los Angeles Dodgers included a nail-biting 18-inning game, which was the Dodgers' only victory in the series. It was especially impressive for being Alex Cora's first year as a manager in the Major Leagues. The Red Sox ended the season 119-57.

Westward Bound

After a free agency move to the Los Angeles Lakers, NBA star LeBron James still works to overpower opponents. James moved to L.A. despite an incredibly successful streak in Cleveland, where the Cavaliers made it to four consecutive NBA finals. While James got off to a winning start with the Lakers, an injury on Christmas Day caused him to miss several games while he recovered.

Suit Yourself

Outrage explodes when French Tennis Federation President Bernard Giudicelli says he intends to introduce a dress code following Serena Williams' formfitting catsuit as "one must respect the game and place," and that her outfit would no longer be accepted. Williams wore the outfit in her first Grand Slam appearance after giving birth to help protect her from blood clots and said the outfit made her feel like a "queen from Wakanda." Tennis legend Billie Jean King called it a "policing of women's bodies."

Don't Pull Me Down

Fighting to regain the ball, Los Angeles Rams cornerback Marcus Peters grips New England Patriots wide receiver Cordarrelle Patterson as he advances with the ball during Super Bowl LIII in Atlanta. The Patriots won 13-3 in their sixth Super Bowl victory, tying with the Pittsburgh Steelers for most Super Bowl titles, and Julian Edelman was named MVP of the game. It marked the lowest-ever Super Bowl score and the fewest touchdowns in a Super Bowl game.

**National Federation of State High School Associations 2017-18 Athletics Participation Summary

YEAR IN RE- VIEW SPORTS

Changing Tide

In their fourth matchup in as many years, Clemson wide receiver Justyn Ross thrills fans with a one-handed catch in the air during the NCAA College Football National Championship in Santa Clara, California. The Clemson Tigers dominated the number one ranked Alabama Crimson Tide 44-16. Freshman quarterback Trevor Lawrence proved a force to be reckoned with, throwing for 347 yards and three scores.

Salute of the Ages

The NFL's two conference title games are notable for their quarterbacks: in both games, established longtime quarterbacks face off against NFL newcomers. The Los Angeles Rams, with 24-year-old quarterback Jared Goff, beat the New Orleans Saints and 40-year-old quarterback Drew Brees to secure the NFC championship. For the AFC championship, experience won out over youth, with the New England Patriots and 41-year-old quarterback Tom Brady beating the Kansas City Chiefs and 23-year-old quarterback Patrick Mahomes, who was named the 2018 NFL MVP. The 16- and 18-year age differences were the largest in any conference title game.

The Expansion Pack

Fans gather to symbolically break ground for a hockey arena after December brought an announcement by the National Hockey League that a 32nd franchise would be added and based in Seattle. Though the team will not play until the 2021-2022 season, fans already speculated what their name would be. Major League Soccer expanded to 27 teams, adding in Austin, Cincinnati, Miami and Nashville, while a number of cities competed for the final 28th franchise.

Ballet on the Big Screen

Ballerina Misty Copeland makes strides in the ballet world. At the esteemed American Ballet Theatre, she and Calvin Royal III became the first black couple to dance lead roles. They performed in the Harlequinade as Pierrette and Pierrot. She also danced as the Ballerina Princess in "The Nutcracker and the Four Realms," a cinematic adaptation of the famed Tchaikovsky ballet.

Raising the Bar

Simone Biles doesn't slow down after dominating the 2016 Olympics, becoming the most decorated female gymnast of all time. The 21-year-old Texan continued to dominate the U.S. gymnastics scene in 2018. She shone at the World Championships in Qatar, medaling in all six events despite being hospitalized with a kidney stone the night before qualifying.

First Lady of Football

Breaking another glass ceiling in a sports arena, Sarah Thomas becomes the first female to be an on-field official during the postseason. She was one of the referees during the playoff game between the Los Angeles Chargers and the New England Patriots. Thomas already made history by becoming the first female referee to officiate a college bowl game, as well as the first full-time female referee in the NFL.

Recognizing a Legend

While all MLB players dream of joining the Hall of Fame, former New York Yankees closer Mariano Rivera tops that by becoming the first player to be unanimously voted in. Rivera, who did not even make it into the majors until he was 25, was a 13-time All-Star, a World Series MVP and anchor to five winning World Series Yankees teams. Rivera holds the record for all-time saves and was known for the cutter pitch that shattered many a bat.

YEAR in RE- VIEW SCIENCE/ TECHNOLOGY

Powerful Science, Great Responsibility

Excitement spreads through the scientific and medical community about the possibilities made available through the genetic engineering tool CRISPR (Clustered Regularly Interspaced Short Palindromic Repeats). However, ethical concerns were raised when Chinese scientist He Jiankui announced his use of CRISPR to alter the DNA of two twin girls, making them resistant to HIV. His actions were widely condemned by the worldwide scientific community for not following scientific protocol.

Breaking Radio Silence

Scientists at the Canadian Hydrogen Intensity Mapping Experiment (CHIME) in British Columbia discover repeated radio blasts coming from space – 13 in three weeks and 6 in the same location. These millisecond-long bursts required the amount of energy the sun produces a year. Speculation abounded as to the source, and theories included everything from alien transmissions to an exploding star.

Red Death

Toxic red tide, the nickname used to describe massive blooms of *Karenia brevis*, has a conservation team rushing to the aid of this sick sea turtle. The algae was naturally occurring, but runoff from cattle farms and residential development encouraged growth to dangerous amounts. The resulting red tide killed millions of fish in the Gulf of Mexico, harmed wildlife along a 100-mile stretch of Florida's coast and killed hundreds of sea turtles, as the unpleasant smell and harmful effects to humans drove away beachgoers and harmed local tourism.

First Contact?

What appears to be an asteroid quickly travels through the solar system in 2018. Named 'Oumuamua – Hawaiian for "a messenger that reaches out from the distant past" – its unusual shape and speed caused some scientists to speculate that the object may have been created by an alien civilization. The theory was not widely accepted by researchers.

Mosquitoes on a Diet

The key to reducing mosquito-borne diseases may be a diet, at least for mosquitoes. Female *Aedes aegypti* mosquitoes don't eat for days after a large feeding, so scientists at Rockefeller University tried to simulate that with a human diet drug and succeeded! A solution that tasted like blood mixed with an appetite suppressant drug left the mosquitoes disinterested in human feeding, giving hope it could be used in outdoor traps to help reduce the spread of the Zika virus, yellow fever and dengue.

Losing our History

Flames engulf Brazil's National Museum in September, destroying most of the 20 million artifacts. People around the world mourned the devastating loss of heritage which included paleontology fossils, indigenous South American cultural artifacts, anthropological finds, Brazil's largest meteorite and Egyptian mummies, to name a few. It was the largest museum in South America, Brazil's oldest historical institution and former home of the Portuguese royal family.

Polar Extremes

A milk cow tries to keep warm in -28 degree weather in New Prague, Minnesota, before being milked at Metogga Lake Dairy. A warm front moved warm air into the arctic regions in late January and pushed the polar vortex cold air farther south, leading to record-breaking temperatures in parts of the north and Midwest. Parts of Iowa and Minnesota saw wind chills reach -50 and -60 degrees, and Chicago had to light railroad tracks on fire with kerosene-soaked ropes to keep them operational.

YEAR in RE- VIEW SCIENCE/ TECHNOLOGY

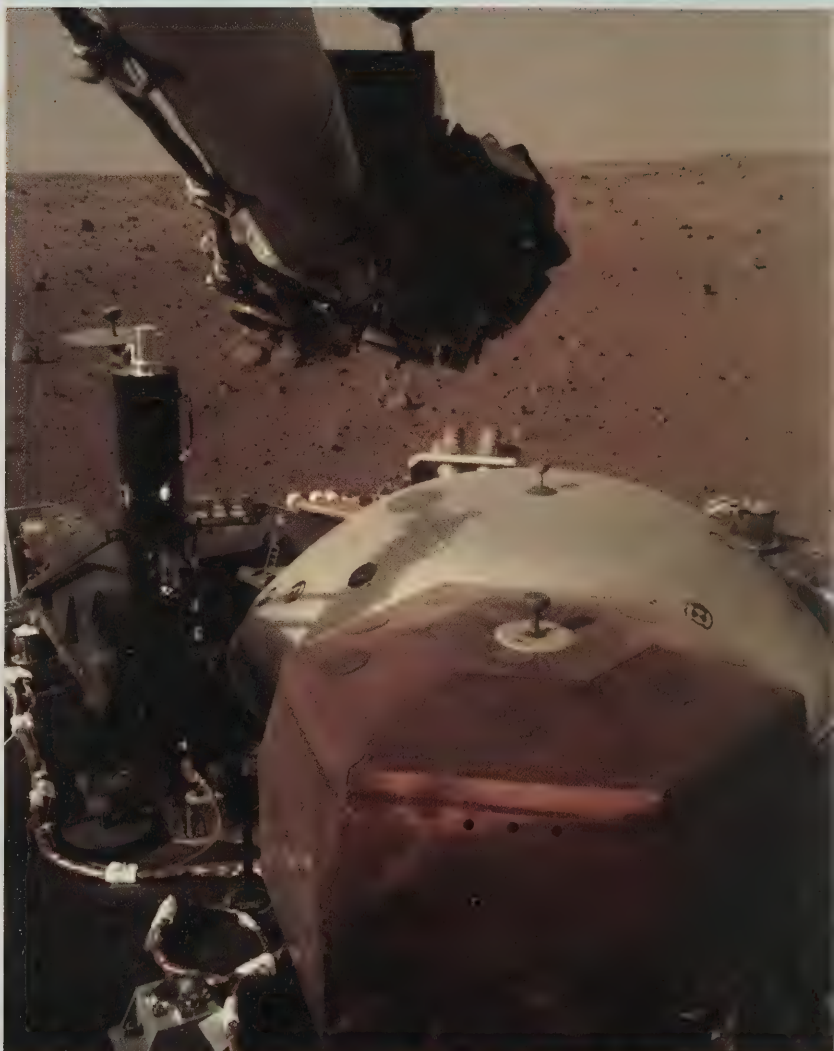

Looking to the Past

Genetic testing kits like 23andMe and Ancestry continue to grow in popularity. Their use helped investigators find crime suspects and solve decades-old cold cases. There was also a downside, with some users finding unexpected results, leading to uncomfortable family talks.

Seeing Red

November marks a major space exploration accomplishment as NASA's InSight spacecraft lands on Mars. The journey was especially tricky because InSight was too far away to pilot the landing, so the craft landed itself, slowing from 12,300 mph in 6.5 minutes. InSight embarked on a two-year geologic core study, which scientists hope will help them better understand why two rocky planets like Mars and Earth are so geologically different.

A Bite of the Profit

Strong sales and a loyal following of users helps Apple reach a financial milestone in August: it becomes the first U.S. public company worth \$1 trillion. However, disappointing sales of the new iPhone XR and iPhone XS, as well as concerns about smartphone addiction and planned obsolescence, were factors in the company's subsequent drop below the \$1 trillion mark.

Ms. Morales, Thank you for
